## Test Poster in Portrait Format With a Second title line below

Graeme A Stewart

graeme@astro.gla.ac.uk

## Introduction

Blah, blah, blah.

We three sit in the grid.
Like spades hanging in the wind.
Falling down.

Concrete poetry is a concrete

$$x' = \frac{1}{x}$$

Circular arguments go round and round, they don't go down the page like this, hence this is not a circular arguments go round and round, they don't go down the page like this, hence this is not a circular arguments go round and round, they don't go down the page like this, hence this is not a circular arguments go round and round, they don't go down the page like this, hence this is not a circular arguments go round and round, they don't go down the page like this, hence this is not a circular arguments go round and round, they don't go down the page like this, hence this is not a circular arguments go round and round, they don't go down the page like this, hence this is not a circular arguments go round and round, they don't go down the page like this, hence this is not a

## Introduction
